## FOUNDATION

---

The College was founded by Mrs. Indiana Fletcher Williams, who died in October, 1900, leaving the bulk of her estate, consisting of over eight thousand acres of land and over a half million dollars, in trust, to the Right Reverend A. M. Randolph, Bishop of Southern Virginia, the Reverend T. M. Carson of Lynchburg, Virginia, Stephen R. Harding of Amherst County, Virginia, and the Reverend Arthur P. Gray of Amherst, Virginia. She directed these Trustees to procure the incorporation in the State of Virginia of a foundation, and to establish the same as a perpetual memorial to her daughter, Daisy Williams, turning over to it all property left them in trust. She provided that this corporation should be controlled by a Board of seven Directors, the first members of which should be appointed by the Trustees. The Directors were to hold all properties in trust and to fill any vacancy occurring in their number.

The intention of the founder with regard to the kind of institution which should be established is expressed in the following extract from her will: "The said corporation shall with suitable dispatch establish and shall maintain and carry on upon the said plantation a school or seminary to be known as the 'Sweet Briar Institute,' for the education of white girls and young women. It shall be the general scope and object of the school to impart to students such an education in sound learning, and such physical, moral, and

religious training as shall in the judgment of the Directors best fit them to be useful members of society.”

The College was chartered in February, 1901, according to the conditions of the will, with a self-perpetuating Board of Directors, consisting of the following members: The Right Reverend A. M. Randolph, the Reverend T. M. Carson, the Reverend Arthur P. Gray, Stephen R. Harding, the Reverend Carl E. Grammer, Dr. J. M. McBryde, Judge Legh R. Watts.

At its first meeting, held in April, 1901, the Board of Directors determined that the foundation should be free from denominational control, but distinctly religious in character, and that, uniting classical and modern ideals of education, it should maintain the highest college standards.

## ADMISSION OF STUDENTS

---

### APPLICATION FOR ADMISSION

All correspondence relating to admission to the College should be addressed to the Registrar.

A candidate for admission must be at least sixteen years of age. Only graduates of four-year preparatory schools of recognized standing, or applicants who can offer equivalent preparation will be received into the College. The standards of the Association of Colleges and Secondary Schools of the Southern States and associations of similar character in the north and west will be carefully observed. It is understood that the candidate must have completed the requirements for admission as outlined in this catalogue.

She should present satisfactory testimony as to her ability and character, and a certificate from her physician, covering general health, vaccination, and freedom from chronic ailments.

No application will be filed until an application blank—attached in catalogue or to be obtained from the Registrar—has been filled out and returned to the college. Registration is not confirmed until the *complete* preparatory record has been examined and accepted. If the preparatory school indicates no certifying grade it is expected that the grade in every subject shall be appreciably above the passing mark.

Every application must be accompanied by a registration fee of ten dollars (\$10.00). *A student will*

*not be registered nor her room reserved until this fee is received.* The amount, \$10.00, is deducted from the first payment, but is not refunded should the applicant withdraw.

No student may register in the College later than two weeks after the beginning of a semester.

NOTE.—Students should register upon the dates indicated in the college calendar. A fee of five dollars (\$5.00) will be charged for late registration. No student may enter classes until this fee is paid.

### **ADMISSION TO THE FRESHMAN CLASS**

Applicants may be admitted to freshman standing in either one of the following ways:

1. By presenting a certificate covering fifteen units of recommended work from an approved preparatory school. These units should conform to the units prescribed for entrance by Sweet Briar College. Candidates will not be admitted if conditioned in any prescribed unit or in more than one elective unit. Entrance examinations are not required of students whose preparatory records are satisfactory, except when they have taken the entrance examinations of another institution, or any examinations of the College Entrance Examination Board, and have failed to pass. An applicant who has failed an entrance examination may present that subject again only when a second examination has been passed or she has repeated the subject in course and received a certifying grade from an approved school.

A certificate blank is attached to the catalogue or a copy may be secured from the Registrar. This blank

should be filled out in detail by the principal of the preparatory school which the applicant has attended. It should include a statement of the subjects studied, the amount of work covered in each subject, and the grades obtained. This certificate should be forwarded to the Registrar with the application or *immediately after the opening of the senior year in preparatory school.*

2. By examinations at the College on June 3, or September 20. All applications for examinations must be in the hands of the Registrar at least one month before the date set for the examination.

The examinations of the College Entrance Examination Board will be accepted in lieu of examinations at Sweet Briar and official reports of all such examinations must be furnished as a part of the applicant's entrance record.

Candidates may present credentials of the Regents of the State of New York. These will be accepted with a rating of 75 per cent as far as they cover the requirements for admission to Sweet Briar. Credits must be presented on the card verified by the State Board of Education of New York.

She should present (1) an official statement of entrance and college records, (2) a catalogue of the institution from which she transfers, marked to indicate the courses taken, and (3) a letter of honorable dismissal. When the candidate enters from a college belonging to the Association of Colleges and Secondary Schools of the Southern States, or an association of equal rank, she will be given credit, hour for hour, for the satisfactory completion of courses that corre-

spond to those offered by Sweet Briar College. When she enters from any other college, the Committee on Advanced Standing, in consultation with the heads of the departments concerned, will investigate her work.

Credit will be given for a limited amount of work done at approved institutions during the summer months. Students who wish to take summer courses should consult at Sweet Briar the head of the department concerned.

In the case of students entering from other colleges, an arrangement of schedule may be made whereby certain requirements of the freshman and sophomore years may be considered as deferred subjects.

**HISTORY (3 Units)**

For the prescribed point in history, the student must present one of the following subjects:

covered in five recitations a week throughout the year.

The student is expected to have studied a standard textbook, to have done parallel reading, to have acquired a sufficient historical vocabulary to enable her to read the more advanced works intelligently; and to have had some training in the writing of abstracts.

It is desirable that students entering on certificate shall have taken a course in history in the third or fourth year of high school work.

Ancient history is recommended as affording the best preparation for the freshman course.

### **LATIN (3-4 Units)**

#### **3-UNIT REQUIREMENT.**

Candidates should have a thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the authors read, with the ability to use this knowledge in writing Latin. The amount of prepared reading should be not less than four books of Cæsar's Gallic War, and seven orations of Cicero (counting the Manilian Law as two). This reading may be selected from other works of the authors named above or from other suitable authors, but it must include three orations of Cicero.

It is of special importance that throughout the entire period of preparation, attention should be given to sight reading and to translating English into Latin.

(2) Quadratics and Beyond: Quadratic equations, both numerical and literal; simple cases of equations with one or more unknown quantities that can be solved by the methods of linear or quadratic equations; problems depending on quadratic equations; the binomial theorem for positive integral exponents; the formulas for the  $n$ th term and the sum of the terms of arithmetical and geometrical progressions with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics, and from commercial life. The use of graph-

ical methods and illustrations, particularly in connection with the solution of equations, is also expected.

The satisfactory completion of these topics in algebra requires, in general, two years.

Instead of the list of topics specified above, students may present the preparation outlined in the major requirement recommended by the National Committee on Mathematical Requirements as published by the Bureau of Education, Department of the Interior, Bulletin, 1921, No. 32, or the two-unit requirement given in the latest syllabus of the College Entrance Examination Board.

(b) PLANE GEOMETRY.—The usual theorems and construction of good text-books, including the general properties of plane rectilinear figures; the circle and the measurements of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems; application to the mensuration of lines and plane surfaces.

The requirements in physics are one full session of work, the use of a standard text-book and three recitations a week. In addition to the three recitations, four periods each week throughout the session should be devoted to laboratory work performed by the student under the direction of the instructor. The recitations and experiments should cover mechanics, sound, heat, light and electricity. The notebook should have a suitable cover, a complete index and be

neatly and legibly written; it should also be indorsed by the instructor as a true record of the student's work. This notebook is to be presented for examination on request.

### **PHYSIOGRAPHY ( $\frac{1}{2}$ -1 Unit)**

Text and laboratory work.

### **PHYSIOLOGY ( $\frac{1}{2}$ Unit)**

Text and notebook.

### **SPANISH (2-4 Units)**

The requirements follow the recommendations of the Modern Language Association embodied in Document No. 105 of the College Entrance Examination Board.

At the end of the elementary course the pupil should be able to pronounce Spanish accurately, to read at sight easy Spanish prose, to put into Spanish simple English sentences taken from the language of everyday life or based upon a portion of the Spanish text read, and to answer questions on the rudiments of the grammar, as indicated below.

4. Mastery of all but the rare irregular verb forms and of the simpler uses of the modes and tenses.

5. Writing Spanish from dictation.

6. Memorizing of easy short poems.

Every secondary school in which Spanish is taught should have in its library several Spanish-English and English-Spanish dictionaries, the all-Spanish diction-

ary of the Royal Spanish Academy; one or more manuals of the history of Spanish literature, such as that by Fitzmaurice-Kelly, and Ticknor's *History of Spanish Literature*.

More than 2 units in Spanish are rarely offered. The case of each applicant for further credit will be considered individually.

### **ZOOLOGY ( $\frac{1}{2}$ -1 Unit)**

A half unit is accepted only when a half unit in Botany is also offered.

# **ADMINISTRATION OF THE CURRICULUM**

---

## **REGISTRATION**

Students report first to the Registrar's office and obtain their matriculation cards. They are then assigned by the chairman of the Registration Committee to a member of the Committee for classification. This card is then presented to the Treasurer who receives the student's fees and stamps the card before it can be returned to the Registrar's office. No student may enter her classes until the matriculation card bearing the Treasurer's stamp is in the office of the Registrar.

All upper class students who have registered for their courses in the spring must have their matriculation cards stamped by the Treasurer upon payment of their fees before these cards can be filed in the Registrar's office. No upper class student may enter her classes until her matriculation card so stamped is in the Registrar's office.

## **ATTENDANCE ON LECTURES**

Students are expected to attend their lectures regularly and promptly. Any absence from class tends naturally to lower the student's standing. After a specified number of absences, whatever the cause, students must conform to Faculty Rulings covering the case.

### EXAMINATIONS

General examinations are held twice a year. If a student is unable on account of illness to take an examination at the time scheduled, she must secure a physician's certificate of illness, and present the same to the head of the department in which the examination was missed, who will set the time for a special examination. Absence for other reason than that of illness will be considered a cause for a failure, unless the student presents for such absence reasons satisfactory to the Faculty.

Re-examinations are allowed in case of conditional failure at the discretion of, and at the time appointed by, the head of the department concerned. Those failing in the re-examination will be required to repeat the course in question.

### MERIT GRADES

Grades indicating the student's standing in any course are officially recorded as follows: "A", excellent; "B", very good; "C", good; "D", passing; "E", failure, with privilege of re-examination; "F", failure, without privilege of re-examination. The grades "A", "B", and "C", are known as "merit" grades. At least half of the 120 semester hours required for a degree must be of "merit" grade.

In order to advance regularly from class to class a student must have attained merit grade in at least half of the required semester hours.

No deductions will be made from payments for tuition except in music.

No deduction or refund of any kind will be made except in case of illness necessitating withdrawal from

college. In such a case a refund of \$30 a month (no period less than a month considered) will be made for board, and of \$8 a month for music tuition, vocal or instrumental. Application for refund should be submitted to the President with a doctor's certificate covering the case and any deduction is reckoned from the time this formal notice is given. The periods of Christmas and spring vacations are not included in reckoning a refund.

**The College reserves the right to exclude at any time students whose conduct or academic standing it regards as undesirable.**

## SCHOLARSHIPS

---

Scholarships are awarded to students who need aid in securing their education with the expectation that young women who receive scholarships will bring credit to the College and will make the College richer because of the spirit in which they pursue their education. Since the requests of students in upper classes frequently exhaust the funds in hand, the College can only in exceptional cases make provision for aid to students in their first year. Applications for scholarships or loan funds should be sent to the Dean before February fifteenth previous to the year for which the scholarship or loan is desired.

In accordance with the wish of the founder of the College, Mrs. Indiana Fletcher Williams, the College gives a number of tuition scholarships of the value of two hundred and eighty dollars each, awarded each year upon the recommendation of the Faculty Committee on Scholarships to students of good standing who would otherwise be unable to meet the expenses of a college education.

Also in accordance with the wish of the Founder, the Board of Directors of Sweet Briar College continues tuition scholarships to Amherst County young women who are certified for college entrance and who give evidence of good scholarship and of serious purpose.

The proceeds of the Boxwood Inn furnish a small number of tuition scholarships.

In memory of N. C. Manson, Jr., the Alumnae have established the Manson Memorial Scholarship of the value of two hundred dollars, to be awarded each year by the faculty committee on scholarships to an upper class student of high academic standing who shows qualities of leadership and takes part in most of the student activities.

For 1926-27 the Dora L. Morris Freshman Scholarship of two hundred dollars was available by a special gift.

Beginning with the academic year 1927-28, the College will offer two competitive freshman scholarships of the value of two hundred and eighty dollars each, open to students entering the College from Virginia high schools which are on the Accredited List of the Commission on Secondary Schools of the Association of Colleges and Secondary Schools of the Southern States, and one, open to freshmen entering from private schools in Virginia. Candidates for these scholarships must take the College Entrance Board Examinations under either the New Plan or the Old Plan. The report of the examinations is to be sent by the College Entrance Board directly to Sweet Briar College to be used as a basis for the selection of the successful candidates. Correspondence concerning these scholarships should be addressed to the Dean of Sweet Briar College; requests for information concerning the College Entrance Examination Board should be addressed to its Secretary, 431 West 117th St., New York, N. Y.

Mr. Kinckle Allen of Amherst has provided a fund of one thousand dollars, to be known as The Margaret Gilmer Allen Fund, the interest on which is for the aid of an Amherst County student.

The College Book Shop has established a loan fund, and in some years also provides one or two scholarships. Applications for the scholarships must be made to the Dean of Sweet Briar College, and application for the loan fund to the Chairman of the Book Shop Committee.

Two scholarships are available for students especially gifted in music.

Two tables are maintained by the College at Woods Hole for the benefit of students who show marked proficiency in the Department of Biology.

## GENERAL INFORMATION

---

### LOCATION

Sweet Briar College is located in the Piedmont section of Virginia, twelve miles north of Lynchburg and one hundred and sixty miles south of Washington on the main line of the Southern Railroad.

### GROUNDS

The college grounds consist of twenty-eight hundred acres. The campus, with its green lawns, its ancient woodlands, its gardens and meadows, gives ample opportunity for the most extensive sports and exercise. A pleasant lake affords boating and swimming in the fall and spring, and skating in winter. The athletic fields provide for hockey, basketball, tennis, and archery. The unusual extent and beauty of the campus and the charm of the surrounding Blue Ridge Mountains make riding, driving, and cross-country walking particularly popular with the students.

A large farm and dairy supply the College with fruits, vegetables, cream, and milk.

### BUILDINGS

The present college buildings have been erected in accordance with a plan for a group of sixteen buildings. These buildings, of a uniform style of architecture, are to be connected by arcades. The plan provides for two quadrangles: one containing seven dormitories, a refectory, a chapel, and a gymnasium; the

other, the academic buildings, the art building, the library, and a science hall. Of these buildings, six dormitories and two academic buildings have been erected. The administrative offices occupy the first floor of Fletcher Hall.

Sweet Briar House, the beautiful old Virginia homestead of the founder of the College, is used as the President's home and for college receptions.

In addition, there are eight other houses, residences of the professors, an infirmary, a steam laundry, an ice plant, a creamery, and a power-house.

All the buildings are heated by steam and lighted by electricity.

The dormitories have every modern convenience, including shower-baths, and are comfortably and attractively furnished. They contain single rooms, double rooms, suites, and reception-rooms.

The academic buildings contain large and well-lighted classrooms, an art studio, and the science laboratories. The library is housed in a small separate building. It consists of over thirteen thousand well-selected volumes in addition to the general reference books and magazine files. The reading-room supplies the leading papers and periodicals.

The assembly hall, in which religious services and all public exercises are held, seats four hundred and fifty persons.

The gymnasium, located in Carl Grammer Hall, is equipped with modern apparatus.

**PHYSICAL CARE AND MEDICAL ATTENTION**

A physician of excellent training and experience resides on the campus. She makes a thorough physical examination of every student who enters college, and supervises the health of the students and the general living conditions of the College.

The Infirmary is a new, well-equipped building with a capacity of twenty beds. Special rooms are available for the isolation of patients with communicable diseases. Stress is laid upon the use of the Infirmary for the prevention as well as the cure of illness. A physician, superintendent, and nurse are in residence, and available for the care of students at all times.

Owing to the unexcelled opportunities for out-of-door life, the exceptionally fine climate and a pure water supply, the health of the students is unusually good, and many who cannot successfully complete their college courses in a more rigorous climate and under more confining conditions, can do their work at Sweet Briar with a steady improvement in health.

**RELIGIOUS LIFE AND SERVICES**

Sweet Briar College is non-sectarian, but it strongly emphasizes the fundamental principles of Christianity. Religious exercises and Sunday services are held in the chapel. Attendance is expected at the daily and Sunday services.

The President and members of the faculty and of the Y. W. C. A. conduct the week-day services, and visiting ministers of various denominations conduct the Sunday services.

The Sweet Briar Christian Association has charge of one of the chapel services each week and has organized and actively directs practical social work among the employees and in the neighborhood of Sweet Briar.

#### GOVERNMENT

The discipline of the College is educative in character and rests largely in the hands of the Student Government Association. The College Council, composed of representatives from the faculty and the students, acts in conjunction with the student executives.

Every freshman is assigned to a member of the faculty who acts as adviser in classification and in

matters that concern the welfare of the student. The same adviser is continued throughout the sophomore year.

The honor system obtains at the College and all tests and examinations are given under this system. Any violation of its requirements constitutes an offense of great seriousness.

At the close of each vacation every student is expected to be at the College at the time specified in the calendar. In case of unavoidable detention she must notify the President or the Dean before the close of the vacation, and after her return she must present the reason for her delay. Absence immediately after vacation, without legitimate excuse, is considered a serious offense.

#### MISCELLANEOUS

The Sweet Briar omnibus runs between the College buildings and the station and meets regularly all local trains. Persons expecting to arrive or depart on other trains should notify Miss Dix, Supervisor of Halls.

Halls of residence will be open for occupancy Monday, September 19.

The College may be reached directly by wire or by long distance telephone.

Every student must supply one-half dozen napkins, towels, sheets for single bed, pillow cases, and an extra blanket or comfort.

All garments sent to the laundry must be marked with Cash's woven names.
